## PROFESSIONAL EXPERIENCE

### Freelance Full Stack Developer

2019 -2020

- Developed Responsive Web Applications for various clients including Agencies and Design Studios and also taken on solo projects.
- Handled communications by meeting with the clients directly and using written communication as well to suggest and gain feedbacks.
- Designed logos, created mockups, promotional banners, and designed User Interface for custom designed web store using Adobe XD, Photoshop and Illustrator to enhance User Experience.
- Built a travelling website called TravellingBud which is a travelling website for booking rooms and hotels. Built from ground up using HTML, CSS, JavaScript, Node JS, Express JS, Restful API's, Mongo DB, MVC Design Pattern and template engine Handlebars.js.
- Built an Ecommerce Web application to sell clothing products online. Purely based on Vanilla JS, HTML and CSS.
- Created a Robust Salary Calculator for Finance Department of a University for Faculties and Local Staff working on regular shifts and overtime.
- Recreated my college's student portal website with additional features such as Responsive Website Design and design concepts of HTML and CSS.
- Created an Ecommerce store using Shopify called as HOOD. This store promotes personal branding and is built from ground up using shopify for partners.
